**1. What are the key elements of the issue? What precipitated it?**

The Sunnyvale Bicycle Plan Action Statement BP.A1.a articulates that a new map showing bike paths, routes and lanes and their suitability ratings should be published periodically. The current bike map was completed in 1993. There have been many bike improvements within the last few years that are not reflected on the current bike map. In addition, the roadway suitability ratings should be updated. Staff believes that the map should be revised to reflect these changes. All expenditures for this project will go towards the cost of printing the maps in addition to the labor needed to update the street bicycle suitability ratings and other elements of the map.
